LANDING PAGE 3: DONE-FOR-YOU SERVICE (APPLICATION PAGE)

Agency: Show-Up Studio, led by Jordan Blake
Offer: Done-For-You "Show-Up Stack" Installed In 21 Days
Page Goal: Qualified Application + Booked Call

SECTION 1: HERO

Pre-Headline (Audience Callout):
For coaches and educators already running webinars to sell a $3,000+ program...

Headline:
We Install The "Show-Up Stack" That Gets 42% Of Your Registrants Into The Live Webinar, So You Close More $3K+ Sales From The Same Ad Spend

Subheadline:
Our team builds your registration page, reminder sequence, and replay funnel in 21 days. You keep running the webinar. We fix everything around it.

Objection Line:
Without raising your ad budget, without changing your offer, and without learning GoHighLevel yourself.

✅ Average show rate goes from **19% to 42% within 2 launches**

✅ Built, tested, and live in **21 days**, or your first month is free

✅ Full email, SMS, and replay follow-up so **no-shows still buy**

CTA Button: See If You Qualify
Button Subtext: 2-minute application. We take 4 new clients a month.

Credibility Bar:
87 webinar funnels built | $14.8M in client program sales tracked | 2.3x more live attendees on average

[Dev note for Hamza: CTA opens a 5-question application. Qualified path (ad spend over $5K/month AND program priced $2K+) redirects to the calendar. Unqualified path redirects to a free resource page. Tag both paths so they get separate follow-up. Once a call is booked, stop the "book your call" reminders.]

Alternate Headlines For A/B Testing:

Headline B: 81% Of Your Webinar Registrants Aren't Showing Up. We Fix That In 21 Days.

Headline C: Same Ads. Same Webinar. Same Offer. 2.3x More People In The Room.

SECTION 2: THE LEAK

Headline:
Your Webinar Doesn't Have A Conversion Problem. It Has An Attendance Problem.

Here's the math most coaches never run:

You spend **$10,000** on ads and get **1,000 registrants.**

At a 19% show rate, **190 people show up.**

If 3% of attendees buy your $3,000 program, that's **5 sales. $15,000.**

Now get the show rate to 42%. **420 people show up.**

Same 3% close rate. **12 sales. $36,000.**

Same ads. Same webinar. Same offer. $21,000 more per launch.

And that's before a single replay sale.

SECTION 3: WHAT WE BUILD

Headline:
The 4 Layers Of The Show-Up Stack

Layer 1: The Commitment Page
A thank-you page that gets registrants to take 3 small actions, like adding the event to their calendar. People who commit on this page show up at twice the rate.

Layer 2: The 7-Touch Reminder Sequence
4 emails and 3 SMS, timed to each registrant's time zone, so nobody forgets.

Layer 3: The Live Room Hook
A bonus only live attendees get, so watching the replay feels like losing out.

Layer 4: The No-Show Recovery Path
Replay follow-up split by behavior. People who watched 30 minutes get a different message than people who never clicked.

Plus: A reporting dashboard showing cost per registrant, show rate, and sales per launch.

CTA Button: See If You Qualify

SECTION 4: CLIENT RESULTS

Headline:
What Happened When We Installed The Stack

A relationship coach selling a $4,000 program
Show rate: **17% to 44%**
Monthly program sales: **$22,000 to $61,000**

A trading educator selling a $6,500 mentorship
Show rate: **21% to 39%**
Cost per booked call: **$310 to $142**

A fitness certification brand selling a $2,200 course
Replay sales per launch: **3 to 19**

"We didn't touch the webinar. Jordan's team rebuilt everything around it and **our next launch did $58K instead of $24K.**"
Rachel D., Business Coach For Therapists

SECTION 5: WHO THIS IS FOR + GUARANTEE

Headline:
This Is A Fit If...

✅ You sell a program priced at **$2,000 or more**

✅ You're spending **$5,000+ a month** on ads to your webinar

✅ Your show rate is **under 30%** and you're tired of watching an empty room

This Isn't A Fit If:

❌ You haven't run a webinar yet

❌ You're looking for someone to fix your offer or run your ads

The 21-Day Launch Guarantee:
If your Show-Up Stack isn't built, tested, and live within 21 days of kickoff, your first month is free. We carry the risk on the timeline, not you.

SECTION 6: HOW IT WORKS + FINAL CTA

Headline:
Here's How We Get Started

Step 1: Apply (2 Minutes)
Answer 5 quick questions about your offer, ad spend, and current show rate.

Step 2: Strategy Call (30 Minutes)
We audit your current funnel live and show you exactly where registrants drop off.

Step 3: We Build, You Launch (21 Days)
Our team builds and tests all 4 layers inside your GoHighLevel account. You approve, then run your next launch.

Urgency Line:
We onboard 4 clients a month so every build gets tested properly. October has 1 spot left.

CTA Button: See If You Qualify
Button Subtext: Takes 2 minutes. No pitch if you're not a fit.

SECTION 7: FAQ

Do I need to be on GoHighLevel?
It's preferred. If you're on another platform, we can migrate your funnel during the 21-day build.

Will you change my webinar or offer?
No. We work on everything before and after the webinar. Your presentation stays yours.

What does it cost?
Pricing depends on your current setup and is covered on the strategy call. Most clients recover the cost in their first launch.

What if my show rate is already 30%?
We'll tell you on the call if there's enough upside to make it worth it. If there isn't, we'll say so.

Who owns the funnel after the build?
You do. Everything lives in your account, with a handover video for your team.
